---

### Jackson & Perkins Company

*Wholesale Only*  
Newark, New York.

# Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

**THE PRICES** named in this list are based upon present market conditions, and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want lists calling for larger quantities than are named herein. On the other hand, these are **wholesale prices** and are applicable only to **wholesale quantities**; in no case will we fill retail orders, even though from nurserymen. All orders should be made up in 10's or multiples of 10. As only hundred rates are quoted in this list, prices on assortments of 10 of an item will be figured at **20 per cent. additional**.

**TERMS.** The usual terms are offered to those of established credit or whose responsibility is known to us. Cash, security, or satisfactory references required from unknown parties. All bills are due in sixty days unless other arrangements are made at the time of sale. **All prices are net and not subject to any discount unless specially agreed upon.**

**SHIPPING.** Customers are requested to give definite instructions in regard to manner of shipping that they desire. In the absence of special instructions we will use our own best judgment, but with the express understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore, the Pennsylvania Railroads, also the Rochester and Syracuse interurban trolley line, enabling us to ship in any direction over trunk lines. Express is handled over three of these routes.

**BOXES** will be charged for at the rated noted below. These are somewhat reduced on account of our being able to buy lumber somewhat more reasonably. These rates, however, do not really cover present actual cost to us.

10 ft. 30 in. x 30 in. ....	\$4 50	10 ft. 20 in. x 20 in. ....	\$3 15
10 ft. 28 in. x 28 in. ....	4 20	10 ft. 18 in. x 18 in. ....	3 00
10 ft. 26 in. x 26 in. ....	4 00	10 ft. 14 in. x 16 in. ....	2 50
10 ft. 24 in. x 24 in. ....	3 50	10 ft. 12 in. x 14 in. ....	2 30
10 ft. 22 in. x 22 in. ....	3 25		

Add 50 cts. on all sizes of 12 ft. boxes; decrease in same proportion for shorter boxes.

**BALES** will be charged for at actual cost of material used. We make no charge for packing or for delivery to the railroad station.

**GUARANTY.** We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any nursery stock, seeds or bulbs we sell, and we will not be in any way responsible for the crop.

**CLAIMS** for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others; **but we will not entertain claims made after goods have been once accepted**, or when report is not made within ten days after arrival of the stock.

**INSPECTION AND FUMIGATION.** Certificate of inspection will be furnished with every shipment and, when required, stock will be fumigated.

**SPECIAL NOTICE.** Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers nor sell to planters; we have **no retail trade** of our own, and sell **to the trade only**; in justice to our **only** customers, the Nurserymen, Florists, and Dealers, we use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them. **Use printed stationery, or enclose business card.**

**LOCATION.** We are located thirty miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Respectfully,

**JACKSON & PERKINS COMPANY**

Newark, New York, June 14, 1927.

The wholesale prices in our lists apply on wholesale quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. As only hundred rates are quoted, prices on assortments of ten of an item will be figured at 20 per cent. additional.

# Roses

**GRADES.** For early fall delivery we offer No. 1 grade only. For late fall and spring delivery we can supply No. 1½ (Medium) grade at 30% off and No. 2 grade at 50% off these prices.

## Bristol Fairy Gypsophilla

(New, large, double Baby's Breath)

Grafted plants from 3 in. Pots

75c Each.

(25 at 100 rate)

100 Plants for \$50.

**D**ELICATE and charming in the mist-like profusion of its snow-white flowers, it is not only effective as a garden subject, but its cut sprays are also particularly useful for blending with other garden flowers. Commencing to flower fully ten days before the older double kind—late June here—the small side sprays combine daintily with sweet peas, then at their best, and the larger sprays add charm to any combination of cut-flowers.

Its value as a cut-flower is further enhanced because the sprays, if allowed to dry, retain their grace and clean color, and can be used effectively with everlasting flowers.

Briefly described, Bristol Fairy has all the virtues of the well-known Double Baby's Breath (*Gypsophila paniculata flore-pleno*) but it is superior in these respects: Its flowers are almost three times larger, are pure-white under all conditions, and being more widely spaced, are better poised and more graceful in every way. Its growth is more vigorous and sturdy, attaining a height of 4 feet, with a spread fully as broad.

Best of all, after the first flowers are cut, it flowers periodically until severe frost, so that cut sprays are always available and the plant is attractive throughout the season.

## New Red-Leaved Japanese Barberry

*Berberis thunbergii atropurpurea*

	Per Doz.	Per 100	Per 1000
One-year plants.....	\$ 4 00	\$30 00	\$250 00
Two-year plants.....	6 50	50 00	450 00
Three-year plants.....	10 00	75 00	600 00

**I**T IS only once in a lifetime that a really worth-while, outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant.

It is similar in all respects to the green-leaved Japanese Barberry which is so popular for mixing in the shrubbery border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges, but the foliage of this new variety is of a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese Maples. However, unlike these and other colored shrubs in which the coloring fades or disappears entirely as the season advances, this new Barberry becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid orange, scarlet, and red shades, more brilliant and more effective than in the ordinary Japanese Barberry. In this coloring it is unacqualed by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter.

All that is required to develop its brilliant coloring is that it be planted in **full exposure to the sun.** This is important.

The wholesale prices in our lists apply on wholesale quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. As only hundred rates are quoted, prices on assortments of ten of an item will be figured at 20 per cent. additional.
